## 5 Insert Merchant Account

The screenshot shows the Joomla! administrator interface for configuring a payment method. The top navigation bar includes 'System', 'Users', 'Menus', 'Content', 'Components', 'Extensions', 'Help', and 'VirtueMart'. The current page is titled 'Payment Method [ Edit ]' and features a Joomla! logo in the top right corner. Below the navigation bar, there are buttons for 'Save & Close', 'Save', 'Cancel', 'Help', and 'Permissions'. A circled '1' is placed above the 'Open configuration' button.

The main content area is titled 'sbm\_redirect' with the sub-label 'PaymentMethod: sbm\_redirect'. A circled '2' is placed above the 'POST\_URL' field. The configuration form includes the following fields:

- POST\_URL:** A text input field containing 'https://202.191.186.125/payment/'. A yellow callout box labeled 'past SBM Merchant' points to this field.
- Username:** A text input field containing 'PINE-API'.
- Password:** A text input field containing 'Password11'.
- Currency:** A dropdown menu with 'VMPAYMENT\_SBM\_...' selected.
- Test:** A radio button group with 'No' selected and 'Yes' unselected.

On the left side, there is a sidebar menu with categories: 'PRODUCTS', 'ORDERS & SHOPPERS', 'MANUFACTURERS', 'SHOP', and 'CONFIGURATION'. The 'CONFIGURATION' category is currently selected. Under 'CONFIGURATION', there is a sub-section 'Parameters gateways' with a table of parameters:

Parameter	Value
POST_URL	https://202.191.186.125/payment/
Username	PINE-API
Password	Password11
Currency	VMPAYMENT_SBM_...
Test	No
